## DR. BABASAHEB AMBEDKAR TECHNOLOGICAL UNIVERSITY, LONERE – RAIGAD -402 103 Mid SemesterExamination – August 2018

Branch: M.Arch (G) Second Year  Subject: - Advanced building technologies		Sem.:- III	
Subject Code:-705 Date:-	Marks:40		
Date ====================================		Time:- 2	
Instructions:-			
1] Questions No. 1 is compuls	ory and Attempt any THREE from		
1 - 2 - 2 ou de tutes to the Hal	III INGICATE titil marke	Question No. 2	
Assume suitable data, if neces	ssarv		
4] Neat diagrams must be drawn	wherever necessary.		
* pp// 40 ft	Q0L011011]	4+(3X3)=1	
i) Write name ii) Which const platform	of any four advance building mat truction technique is most approp	4+(3X3)=1	
i) Write name ii) Which const platform	of any four advance building mat truction technique is most approp Frame structure	4+(3X3)=1	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod	of any four advance building mat truction technique is most approp Frame structure S esic dome	4+(3X3)=1	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None	of any four advance building mat truction technique is most approp Frame structure S esic dome of above	erial. (4) riate to cover railway station	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false	of any four advance building mat truction technique is most approp Frame structure S esic dome of above E: - A tensile structure is a constru	erial. (4) riate to cover railway station	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i	of any four advance building mat truction technique is most approperate structure size of above a constructure is a constructure is a constructure compression or bending.	erial. (4) riate to cover railway station  (3) action of elements carrying only	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i	of any four advance building mat truction technique is most appropriate frame structure.  Sesic dome of above above a constructure is a constructure is a constructure compression or bending.	erial. (4) riate to cover railway station  (3) Iction of elements carrying only (3) Ok place between 17th and 18th	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i iv) century. Sta	of any four advance building materuction technique is most appropriate frame structure  Sesic dome of above a: - A tensile structure is a construit of a compression or bending.  was the time period which to ordered in Britain and spread througe	erial. (4) riate to cover railway station  (3) Iction of elements carrying only (3) Ok place between 17th and 18th	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i iv) century . Sta a) Indust	of any four advance building mat truction technique is most appropriate structure.  Frame structure sesic dome of above: - A tensile structure is a constructure compression or bending.  was the time period which to trick in Britain and spread through trial Revolution	erial. (4) riate to cover railway station  (3) Iction of elements carrying only (3) Ok place between 17th and 18th	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i iv) century . Sta a) Indust b) Moder	of any four advance building mat truction technique is most appropriate structure.  Frame structure sesic dome of above: - A tensile structure is a constructure compression or bending.  was the time period which to trick in Britain and spread through trial Revolution	erial. (4) riate to cover railway station  (3) Iction of elements carrying only (3) Ok place between 17th and 18th	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i iv) century . Sta a) Indust b) Moder c) Post-M	of any four advance building materuction technique is most appropriate frame structure  Sesic dome of above  - A tensile structure is a construence compression or bending.  was the time period which to order in Britain and spread through trial Revolution	erial. (4) riate to cover railway station  (3) action of elements carrying only (3) bok place between 17th and 18th ghout the world.	
i) Write name ii) Which const platform a) RCC b) AESS c) Geod d) None iii) True or false tension and i iv) century . Sta a) Indust b) Moder c) Post-M	of any four advance building mate truction technique is most appropriate appro	(3) Iction of elements carrying only (3)
